FURNITURE COLLECTION

ELBE

The **ELBE** product line by Eva Marguerre, Marcel Besau and Daniel Schöning was originally conceived for the Elbphilharmonie concert hall in Hamburg and is now available as part of the **e15** collection. Building on simple geometric forms, the high table and side table with marble top, as well as the bench with upholstered seat in **Kvadrats** fabric **Basel**, are enduring pieces and are especially suited to the design object market.

JURY STATEMENT

There are some designs whose potential to become a classic is readily apparent at first glance. The delightfully minimalist and nonetheless expressive **ELBE** collection definitely falls into this category. Clear lines and rigorously geometric surfaces are in perfect balance with each other, and endow these beautifully crafted furnishings made of the finest materials with an amazingly light look and feel. A harmonious design that is deliberately unobtrusive, thus enhancing its elegance still further.

TRANSPARENCY

»LID« stands out visually from its backgrounds and generates a pleasant, calm, light mood. The glass edge reflects the light, giving rise to the characteristic line of light.

BALANCE

Clear lines and rigorously geometric surfaces are in perfect balance with each other, and endow these beautifully crafted furnishings made of finest material.
